

[2] HYDROSTATIC TRANSMISSION

- | | | | |
|---------------------------|------------------------------------|----------------------|--------------------------------|
| (1) Oil Filter (HST) | (5) Lowering Speed Adjusting Valve | (8) Hydraulic Pump 2 | (11) Power Steering Controller |
| (2) Cylinder Safety Valve | (6) Oil Filter | (9) Hydraulic Pump 1 | (12) Relief Valve |
| (3) Check Valve | (7) Front Hydraulic Block | (10) Oil Cooler | (13) Hydraulic Cylinder |
| (4) Rear Hydraulic Outlet | | | |

The hydraulic system of hydrostatic transmission model is composed of two hydraulic pumps, relief valve, position control valve, hydraulic cylinder, oil filters, oil cooler and other components as shown in the figure.
