

Hydraulic Line

1. Remove the cover of the hydraulic block on the tractor.
2. Install the loader hydraulic block to the tractor hydraulic block.
Tightening torque : 23.0 N-m (2.35 kgf-m, 17.0 ft-lbs)

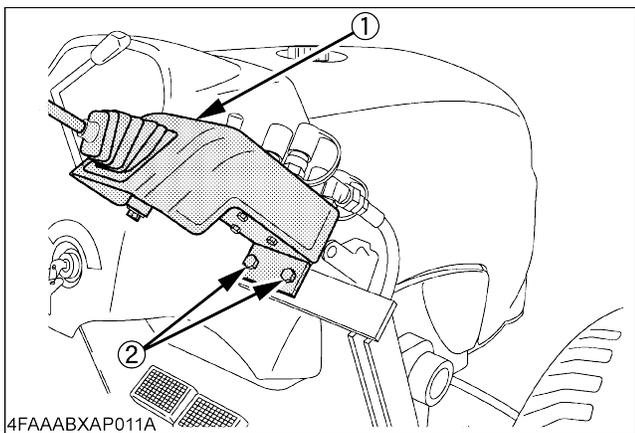

NOTE :

- Make sure install the O-rings at the hydraulic block cover.
- Reuse the bolts fastening the hydraulic block cover.

 (A) Pump port (Orange)
 (B) Tank port (Gray)
 (C) Power beyond port (Green)

IMPORTANT :

- Hoses pre-installed on the control valve assembly are not securely tightened to ease installation of hoses to hydraulic block. Be sure to securely tighten all hose fittings after installing.
- Turn the hose fittings so the hoses clear the tractor and tractor parts.
